## Seeks Passengers' Release—

# Plans Dawn Talk With Rebel Chief

By MORRIS W. ROSENBERG

RECIFE, Brazil (AP)—A U.S. admiral agreed today to a meeting at daybreak Tuesday with the rebel captain of the seized liner Santa Maria to arrange for the release of her 588 passengers.

Rear Adm. Allen E. Smith Jr., U.S. Navy commander in the Caribbean, said he received a message from Capt. Henrique Galvao proposing the meeting on the high seas. Smith quickly accepted.

The Portuguese luxury liner, whose 42 American and other passengers have been virtual hostages since Jan. 22, was reported lying about 60 miles due east of Recife.

Smith will sail on the destroyer Gearing for the rendezvous with the political foe of Portuguese Premier Antonio de Oliveira Salazar. The Gearing, one of four U.S. destroyers assigned to track the captive ship, now is heading for Recife.

Smith flew to Recife from Belem Sunday night to take charge of arrangements for the release of the passengers.

Smith said he planned a rendezvous about 35 miles off Recife but that he expected full instructions from Washington to be sent him aboard the Gearing. He said three other U.S. destroyers were en route here.

Asked if he expects to transfer all the passengers or only the 42 Americans aboard, Smith replied that this depended on the outcome of his talk with Galvao.

U.S. Navy planes spotted the Santa Maria at 7:30 p.m. Sunday cruising in apparently aimless patterns off Brazil's Atlantic coast.

Galvao was under instructions from Gen. Humberto Delgado. (Continued On Page Seven)

## Chimp To Take Space Trip Tuesday

By ALTON BLAKESLEE

Associated Press Science Writer  
CAPE CANAVERAL, Fla. (AP)—A very smart young earthling soon will test whether the brain clicks along normally or goes haywire in space flight.

This earthling will be a chimpanzee, one of man's closest cousins in the department of smarts.

He, or she, will provide the first careful measurements of mental faculties and reflexes affected by the weird stresses of taking off in a rocket, and floating in space without the familiar sensation of having weight.

A highly trained chimpanzee is scheduled to ride Tuesday 115 miles up and 290 miles down range into the Atlantic ocean from this famous space port.

Later, if all goes well, one of seven human astronauts is scheduled to take the same type of ride in another step toward human trips orbiting the earth.

The chimpanzee will have jobs to do in his brief ride. Mental processes of the young chimps are closer to those of men than the ape, scientists report. And their reaction time of .7 of a second is close to man's .5 of a second.

Six chimps have trained to flick levers when lights go on or else they get slight electrical shocks. (Continued On Page Seven)

## JFK, First Lady Hold Reception For Appointees

By FRANCES LEWINE

WASHINGTON (AP)—President and Mrs. Kennedy shook hands with 300 members of their official family at a gay White House reception Sunday night, featuring champagne and mixed drinks.

The President said it was the first chance he had had to meet many of the new members of his team.

The 5 p.m. gathering—first major social event at the White House given by the Kennedys—started off with the swearing in of 15 of the latest appointees. Chief Justice Earl Warren, introduced by Kennedy as "the busiest man in Washington," officiated at the ceremony in the East Room.

Mrs. Kennedy, in a black velvet sleeveless sheath dress, stood with her husband, vice president and Mrs. Lyndon B. Johnson and the Warrens to receive the guests in the Blue Room, where a fire burned in the state fireplace.

The guests mingled later in the state dining room, where a buffet table was laden with tiny sandwiches, cakes and goodies. Drinks, including California and New York champagne, were served at a nearby bar-table. The Marine Corps Band played in the north lobby.

Invited to the reception were 149 administration officials. All appointees to major posts in the administration were on the guest list.

The Kennedys left for their private quarters after about an hour on the receiving line and did not join the guests in the dining room.

The party brought together some of the President's very newest appointees, such as Edward R. Murrow, director of the United States Information Agency, named only Saturday, and some holdovers from prior administrations, such as long-time FBI chief J. Edgar Hoover.

During the day, Kennedy also attended a solemn Red Mass, celebrated by the Most Rev. Patrick A. O'Boyle, Roman Catholic archbishop of Washington, invoking divine blessings on the administration of justice.

## Heat From Ruins Slows Probe Of Tragic Blaze

CHICAGO (AP)—Smoke and heat from the ruins of a six-story factory building defied investigators today in their search for the origins of a disastrous fire which killed nine firemen.

The blaze Saturday near Chicago's Loop was the most deadly in terms of the loss of firefighters' lives, since 1943, said Fire Commissioner Robert Quinn.

He ordered his arson squad to investigate but said it might be several days before the smoldering rubble could be examined.

Memorial services were scheduled for Wednesday by Mayor Richard J. Daley. The victims included two battalion chiefs, two fire lieutenants and five firemen.

Fifteen others were injured, five still are hospitalized. Damage was set at \$500,000.

Most of the victims lost their lives in a heroic effort to free colleagues trapped by a collapsing wall. The rescue attempt was doomed by a second cave-in, the collapse of the roof of the adjacent two-story building.

The flames fed on huge quantities of butter and hard, inflammable substances used by a bakery supply firm housed in the structure.

A third of the city's fire-fighting equipment and 316 men battled the fire for about six hours. Then a second extra-alarm was sounded, for a fire in a building several miles north of the Hubbard street site.

At the site of the second blaze, traffic was re-routed when it was feared a weakened three-story brick wall might give way. Police searched for two youths who may have been responsible for the second fire. Four persons were injured, one critically, and damage was estimated at \$200,000.

## TO HELP RECHART U. S. POLICY IN CONGO

WASHINGTON (AP)—The U.S. ambassador to Leopoldville, Clare H. Timberlake, is coming to Washington to help in a re-appraisal of U. S. policy in the Congo ordered by President Kennedy.

Authoritative sources said over the weekend that Timberlake will sit in on high-level conferences in the White House and State Department.

The most immediate problem is how U. N. Secretary-General Dag Hammarskjöld can continue U. N. efforts on the Congo if some African nations withdraw their troops from the U. N. force in protest.

## AEC Reports On U.S. Strength

By FRANK CAREY

WASHINGTON (AP)—

The United States has built up such an arsenal of new and improved nuclear weapons that it has started relegating obsolescent models to retirement, the Atomic Energy Commission disclosed today.

The AEC said the nation's present nuclear weapons strength—both in numbers and variety—offers a "powerful deterrent against aggression."

But the AEC added this alert to its annual report to Congress: Further dramatic advances in weapons are possible through further nuclear testing, and therefore a threat to the free world is "implicit in a continued unpoliced moratorium on weapons testing."

The commission indicated its belief in the possibility that the Soviet Union may have been conducting underground sneak tests of weapons during the current moratorium, in effect since 1958.

"This commission is in full accord," said the report, "with the national policy of attaining cessation of nuclear weapons tests under a treaty that would establish international controls adequate to assure compliance with its provisions."

"The commission, however, also feels a strong sense of responsibility to point out the risks to free world supremacy in nuclear weapons—and the resultant threat to the free world—that are implicit in a continued unpoliced moratorium on weapons testing."

The AEC gave its appraisal of America's present strength in nuclear arms.

"In the field of national defense," it said, "the commission can take satisfaction in having developed and manufactured a variety of nuclear weapons to meet the current requirements of the Department of Defense."

"Nuclear weapons have been made available for Strategic and Tactical Air Forces and for missile batteries. During 1960, the first submarine armed with nuclear missiles as well as powered with a nuclear reactor—the Polaris missile-carrying USS George Washington—undertook its first routine mission."

"The word knows," said the AEC, "we have an ample store of a variety of nuclear weapons—an armament that represents a powerful deterrent against aggression."

## Warmer Weather Creeps Across Illinois Today

By THE ASSOCIATED PRESS

Warmer weather crept across Illinois today after another night of zero-caliber cold, and there were prospects that milder temperatures would put an end to the 10-day arctic cold snap.

The possibility of above-freezing weather in the south offered hope to river pilots attempting to ram towboats through a 10-mile ice gorge on the Mississippi River above Cairo. The ice piled up to a thickness of 8 to 12 feet in places.

The five-day forecast indicated most of the state can expect near normal temperatures through the week. Northeastern counties may average three degrees below normal. Light snow was predicted in all but the extreme south by Tuesday.

Early morning temperatures ranged from 1 below zero at Moline and Vandalia to 7 above at Quincy. Sunday highs extended from 12 at Vandalia to 21 at Belleville and 22 at Quincy.

## BRIEF LOOK AT JFK'S MESSAGE

WASHINGTON (AP)—In his State of the Union message today, President Kennedy:

Declared "the tide of events has been running out and time has not been our friend" in areas of international crisis. To fulfill the nation's role, he said "we must re-examine and revise our whole arsenal of tools: military, economic and political." He ordered a complete reappraisal of defense strategy and acceleration of the entire missile program.

Said the "American economy is in trouble" and promised to recommend a variety of stimulants, extending from minimum wage to plant investment.

Forecasted a deficit in the 1960-61 budget and a close shave for 1961-62 but said that, barring emergency, his program would not by itself unbalance the '61-62 budget submitted by former President Dwight D. Eisenhower.

Said he already has taken steps "to make arms control a central goal of our national policy under my personal direction."

Invited the Soviet Union and all other nations to cooperate in space projects and exchange of scientific knowledge.

Pledged to keep the dollar sound while acting to ease the balance of payments deficit and prevent any gold crisis.

Urged increased support of the United Nations.

## Citizens League Takes Steps To Strengthen GOP

CHICAGO (AP)—The Republican Citizens League of Illinois, designed to strengthen a party in defeat—particularly in Cook County—is taking its first steps.

Forty prominent Illinois Republicans—with the notable exception of former Gov. William G. Stratton—Sunday set the machinery in motion. They selected James C. Worthy, former head of the United Republican Fund in Illinois, to head the league's temporary governing body.

Stratton, who was invited to attend, is currently on vacation.

The organizational meeting, held in the suburban Kenilworth home of Charles Percy, drew, among others, Secretary of State Charles F. Carpenter; Mrs. C. Wayland Brooks; Francis Connell, Cook County GOP chairman, and Victor Smith, state chairman.

Percy chaired the Republican National Convention's platform committee last year.

"The purpose of the organization will be to toughen Republican fiber and enlist the efforts of citizens who wish to contribute to the party," Smith said.

Charles Bane of Chicago was appointed temporary secretary of the league and Fred M. Gillies, Chicago industrialist, was named in charge of a committee to placate the league's permanent executive body.

"The Republican Citizens League will not replace the regular Republican organization," Worthy said. "Instead, it will assist it, and will be a vehicle to interest citizens in improving the party and government in the state."

## State Begins Drive For Weger Execution In Triple Slayings

OTTAWA, Ill. (AP)—The state today begins its drive to send a 21-year-old dishwasher to the electric chair for the multiple slaying of three socially prominent women in Starved Rock State Park.

Crowds of curious were expected to jam the old LaSalle County Court House for the trial of Chester Rocky Weger, accused of waylaying and bludgeoning the women in a lonely canyon in the park March 14.

Weger, married and the father of two, has pleaded innocent. He has repudiated an alleged confession of the triple slaying which authorities said he dictated after his arrest Nov. 17. Weger claims the statements were forced from him by threats and long hours of interrogation.

About 100 persons were summoned as prospective jurors for the trial, which is expected to last two weeks.

The state is expected to rely heavily on Weger's purported confession in its efforts to obtain a conviction. Circuit Judge Leonard Hoffman, the presiding judge, already has denied a defense motion to bar the statement from evidence.

State's Atty. Robert E. Richardson said he still plans to ask the death penalty for the former Marine. John A. McNamara, Weger's attorney, said Weger will testify in his own defense and deny he killed the women.

Weger is on trial on a charge of murdering Mrs. Lillian Oetting, 50. The other victims were Mrs. Frances Murphy, 47, and Mrs. Mildred Lindquist, 50.

The women, all wives of prominent businessmen, were found in a wooded area near the park. (Continued On Page Seven)

## WOULD WITHHOLD FEDERAL FUNDS FROM SEGREGATED SCHOOLS

NEW YORK (AP)—Rep. Adam Clayton Powell Jr., D-N.Y., says "the time is long overdue" for implementation of the long-pending proposal to bar federal funds to schools discriminating against Negroes.

Powell, speaking at a dinner in his honor Sunday night, said the proposal which he made five years ago should be adopted now either through legislation or executive order.

The Harlem Negro congressman was acclaimed on his forthcoming chairmanship of the House Labor and Education Committee in a telegram to the dinner from President Kennedy.

## Recommendations And Actions Already Taken Here, Abroad

WASHINGTON (AP)—President Kennedy, in his State of the Union message, today made these recommendations and told of these actions he has taken in the domestic and international fields.

**ECONOMIC**  
Within the next 14 days, Kennedy said, he would propose measures:  
To improve unemployment compensation through temporary increases in amount and duration on a self-supporting basis.  
To provide more food to families of the unemployed and aid to needy children.  
To redevelop distressed areas.  
To expand services of the U.S. employment offices.  
To stimulate housing and construction.  
To raise the minimum wage and extend its coverage.  
To offer tax incentives for plant investment.  
To increase the development of natural resources.  
To encourage price stability.  
To take other, unspecified steps aimed at prompt recovery

and long-range growth.  
A new housing program under a new department of housing and urban affairs.  
Federal grants for public school and higher education.  
Health care for the aged under Social Security, plus increased facilities and personnel.  
**FINANCE**  
Kennedy said that to ease the balance of payments deficit and prevent any gold crisis he planned executive orders, legislative requests and cooperative efforts with U. S. allies:  
To attract foreign investments and travel to this country.  
To promote American exports at stable prices and with more liberal government guarantees and financing.  
To curb tax and customs loopholes that encourage undue private spending abroad.  
To share with allies all efforts for common defense and growth of underdeveloped lands.

## Wants Firmer Defense

## But Plans To Seek Russ Cooperation

By Mervin L. Arrowsmith

WASHINGTON (AP)—

President Kennedy, solemnly calling this a time of national emergency with the Communist tide running dangerously against America, today announced he has ordered swift bolstering of U.S. military defenses.

In his first State of the Union message, the President said the orders provide for an immediate speed-up in Polaris submarine construction and in development and production of missiles, and for prompt increase in air-lift capacity to deal with "any problem at any spot on the globe at any moment's notice."

But in his address to Congress and the country, Kennedy also pledged his administration to exploration of "all possible areas of cooperation with the Soviet Union and other nations" to "involve the wisdom of nuclear and space science instead of the terror."

He specifically invited the Soviet Union to join with the United States now in a science space program "which some day may unlock the deepest secrets of the universe."

Kennedy, speaking before a joint session of the House and Senate and to a nationwide television and radio audience, said that despite the current urgent need for greater military might until tensions ease, arms control and disarmament will be "a central goal of our national policy."

He called for new efforts to end the arms race.

Meanwhile, he said: "The tide is unfavorable. Life in 1961 will not be easy. There will be further setbacks before the tide is turned. But turn it we must. The hopes of all mankind rest upon us."

The youthful President dealt mostly with the world situation, which he painted in somber tones. There also was a note of gloominess in what he had to say about the home front.

In short," he declared, "the American economy is in trouble."

He said that for the last seven months business has been in the throes of recession. He said further that there have been "three and half years of slack, severe years of diminished economic growth, and nine years of falling farm income."

Kennedy sketched in general terms a program for dealing with this matter, saying his administration "does not intend to stand helplessly by." He promised to detail the program in special messages to Congress during the next two weeks. The remedies he outlined broadly are largely those he

## Tugboat Battling Ice Gets Stuck; Has To Be Rescued By Fellow Tug

CAIRO, Ill. (AP)—Powerful, blunt-nosed towboats rammed away at a huge mass of ice in the Mississippi river near Cairo today in an effort to open the channel. Weather permitting, they hoped to have the channel open today.

The ice jam was about 10 miles long and at places 8 to 12 feet thick near the confluence of the Mississippi and Ohio rivers.

Towboats, working around the clock, had rammed a path through four miles of it Sunday night.

One of the boats battling the ice was the Tri-Cities—which earlier Sunday was one of three that was ensnared by the ice. It was freed by other towboats.

Most of the Mississippi was choked with ice but near Cairo the Ohio added to the situation and a gorge was formed, locking the river tight. A gorge forms when a portion of the river is frozen solid and more ice is piled on top of it when brought down from up-river.

When the channel is reopened it is hoped that ice coming from up-river will flow on down stream and not pile up.

An Army Engineers spokesman said no boats were reported in trouble and "if the ice doesn't form again as quickly as it's broken, we'll be in good shape."

The spokesman said floating ice had "thinned out considerably" in the St. Louis area and towboats above the ice pack were again heading north.

For a time it was feared the ice might carry away large pilings used to control the river, but they were still holding. Ice caused some \$1 million damage to them in 1960.

## Only Small Percentage Of 1960 Crop Stored

By OVID A. MARTIN

WASHINGTON (AP) — An Agriculture Department report showed today that the amount of 1960 crop grain stored under government price support loans by big farm operators was hardly a drop in the bucket compared with the size of the crops.

Congress directed that non-recourse loans on price-supported commodities be limited to \$50,000. Under non-recourse loans the borrower may surrender the commodities to the government as full payment of the loans—even if their value is less than the amount of the loan.

Congress authorized, however, the making of recourse loans on amounts above \$50,000. Under such loans, the government can claim payment from the borrower for the full amount of the loan.

Previously there was no limit to the amount of non-recourse loans—a fact that brought much criticism. It was claimed the availability of such loans was helping to encourage over-production.

The report showed that of the approximately 685 million bushels of 1960 grain stored under price supports, only about 2,750,000 had been placed under non-recourse loans by Jan. 1. The amounts included only 243,573 bushels of wheat, 30,432 bushels of corn, 76,000 bushels of soybeans and 2,394,000 bushels of oats.

The action in putting the limit on non-recourse loans had little or no effect on the total amount of the grains stored under support loans.

Actually, more grain is being put under support from the 1960 crop than from the previous year.

Officials said the limitation also had little or no effect on acreage seeded by the large as well as smaller operators.

**Egg Production Rises**  
WASHINGTON (AP) — The Agricultural Marketing Service said today an increase in the hatch of laying hens this year is likely to bring the nation's flock to a level that would cause over-production of eggs.

"As egg production continues its seasonal rise, monthly supplies will soon exceed prospective consumption levels," the service said. "Even after allowance for seasonal requirements for hatching, there will be considerably more eggs than are needed to supply consumers."

**Raise Wheat Supports**  
WASHINGTON (AP) — The Foreign Agricultural Service reports that two South American countries—Brazil and Chile—have raised price supports for domestically-grown wheat.

The support in Brazil was set at \$2.50 a bushel for this season's crop compared with \$1.99 for last year's. The support in Chile was raised from a basic rate of \$1.90 to \$1.96 a bushel.

**Lard Sustains Hog Prices**  
WASHINGTON (AP) — The Agricultural Marketing Service said today firm prices for lard in the months ahead should help sustain producer prices of hogs.

Lard production in recent months has been running 16 per cent below a year earlier. This reflects a decline in hog slaughter.

## Business Mirror

By SAM DAWSON

AP Business News Analyst

NEW YORK (AP) — President

Kennedy today joins President Eisenhower in setting forth the State of the Union.

But for millions of Americans the state of the family's economy is pretty well summed up in another report: The rising cost of living.

And the alibi rule boys, without much of a glance at world and domestic political turmoil, think that the outlook for the index of consumer prices is in for more of the same.

That is, still rising. Slowly, probably. But surely.

The family heads, furthermore, know that the index doesn't cover everything. There are other costs that keep going up. The cost of putting the children through school, for example. The cost now looming on the horizon of updating the womenfolk in line with the latest fashion news from Paris.

The cost of many another on a long list of items that deal with status—in the neighborhood, at the office.

Maybe these don't belong in a factual index like the Bureau of Labor Statistic's one on consumer prices. This considers the things that the average middle-income family in cities buy.

The BLS changes the contents of the index from time to time, to keep up with changing consumer habits. But always there are those extras—the ones that the family income earner learns about quickly, even if the BLS doesn't.

Its index covers plenty of things however. Almost all of them have gone up this past year. The BLS officials say price levels probably will go right on creeping higher this year, as they did last year.

You remember last year? That's the year the experts told you to stop worrying about inflation. It was a dead issue. In financial circles it was, but in family circles inflation usually means the cost of living, monetary experts to the contrary, notwithstanding.

The BLS index uses the 1947-49 average as a base of 100. It reports the December figure as 127.5. A year ago the index was 125.5.

Biggest gainer, both in 1960 and in the long haul since the 1947-49 era is medical care. It is now carried at 158.0, a really whopping rise. In 1960 it went up 4.8 from the 153.2 a year ago.

The next biggest advance over the stretch from the starting point is rent, now 142.8, and up 2.0 in the last year.

Food, however, is the biggest culprit of recent weeks. Much of the late price rise is blamed on bad weather that sent up delivery costs and caused shortages. That part of the index is now 121.4, a gain of 3.6 in a year.

The BLS lists other year-to-year rises as follows: Gas and electricity, up 2.9; housing and recreation, each up 1.9; apparel, up 1.4.

Then we come to the heroes in the latest figures on the index, those that are lower than in December 1959.

Transportation is down by 2.2, 0.3 lower than the year ago figures, and their gain over the base. Much of the drop is credited to the popularity of the compact, which cost less to buy and to run. But the current index level of transportation is 146.5, second only to medical care in the increase over the 1947-49 base.

House furnishings are running year is the lowest in the index. They stand at 103.9.

Fuels other than gas and electricity also are 0.3 below the year ago index, but the latest reading is 137.0, while gas and electricity is 125.8.

What's likely to go up more? Well, bad weather could keep food higher for a time, and this year's crops are still in the weatherman's hands.

As for the rest, there are the conflicting forces: Competition holding down prices of many goods, but warring with rising production costs. And there's still no sign that the cost of services has reached a peak.

Joining with 739 Sears stores throughout the country, the local Sears, Roebuck and Co. store will hold an open house on Wednesday, Feb. 1, from 9 a.m. to 5 p.m. to signal the start of the company's year long 75th anniversary celebration.

A unique feature of this nation-wide Diamond Jubilee event will be the serving to open house guests of birthday cake baked from a recipe dating back to 1886, the year the firm began business.

To give the occasion an additional festive note, both the exterior and the interior have been decorated out with special Jubilee flags and pennants.

"The celebration which will be held in our store Wednesday is just a preview of a number of exciting events that we are planning during the year-long observance of Sears' 75th anniversary," said Tom Spelley, manager of the local store.

"Throughout the year there will be many selling events which will be designed to demonstrate to our customers that we are grateful for the role they have helped us play in modern retailing and to reaffirm our determination to continue to enjoy the confidence of an important segment of the buying public."

From the time it started in business in 1886 until 1920, Sears was exclusively a mail order concern which sold goods through its catalogs only. In 1925 the company entered the retail business on an experimental basis. The experiment quickly proved a success and Sears embarked on a vast expansion which has continued without interruption except for the war years.

The local Sears store was opened on April 1, 1937 in its present location. The building was formerly occupied by the Andre and Andre Furniture store. The Sears Farm Store, at 117 E. Court was added in December 1944. The two stores employ an average of 70 persons throughout the year.

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H®. At all drug counters.

## Is Your Child Meeting Challenge Of Space Age Schools?

Editor's Note: This is the first in a series of 15 articles by an educational authority, giving students and parents practical help on how to improve grades in school.

By LESLIE J. NASON, Ed. D., with HARRY KARNS

Never has it been as important as it is today for American boys and girls to know how to make good grades.

Sputnik plunged the U. S. into a contest of brains. Academic standards are rising. The road to the diploma is suddenly rough and getting rougher. More is required of the student than ever before.

For every college student in the U. S. in 1920, there were two in 1940, four in 1950, and six in 1960, and there will be 11 in 1970. The increase in college enrollment in the next 10 years will be greater than it has been in the past 40 years.

Thus, competition for a seat in the American college classroom is just as keen as competition with the Russians.

Millions of American boys and girls, however, are ill-prepared to compete in either of these contests.

They have not learned how to write, how to pay attention, how to read for precise meanings, how to control the speed and accuracy of their mental processes, or how to prepare for and take examinations.

In this series of articles we are going to talk about some common sense principles of learning that can help you make better grades in school and life.

To begin with, let's clear away a major obstacle that stands in the path of learning.

It's the fashion today to blame poor grades, delinquency, bad manners, and flat tires on your great-grandfather's genes and on the pattern of the paper Daddy put on the wall of your nursery.

You Can Do It!

Heredity and environment influence your life, of course. But the notion that they cast your character and habits in a hard, inflexible mold is nothing but a convenient myth—an easy alibi for a bad performance.

We are now going to ask you to forget that myth. We are going to ask you to accept in its place a simple but revolutionary truth: You can consciously control the operations of your brain just as

you control the speed and direction of your automobile.

In World War II the Air Force psychologists proved that you can learn to see more in a shorter span of time. By flashing pictures on screens they trained pilots to take in a fantastic number of details in the wink of an eye and to describe them accurately.

Similarly, the Navy, experimenting in its radio schools, proved that operators could develop accurate receiving ability to the point where a sentence of Morse code was almost a blur of sound.

Several years ago, a Long Beach, Calif., man, Thurman Wade, enrolled in a speed reading class at the Business and Technology Division of Long Beach City College.

Average reading speed for college graduates and U. S. business executives is about 260 words a minute. By conscious effort Mr. Wade hiked his speed to 450 words a minute in a few weeks. Presently he was reading 800, 1,200, and then 2,200 words a minute. At cruising speed he could swish through a 400-page volume in one hour. When last heard from, Mr. Wade had pushed his reading speed to the 6,100-word-per-minute mark and was at the point of going into orbit.

But does he understand what he reads?

Yes. Tests show that as a fast reader his understanding has INCREASED.

Although Mr. Wade's case is unusual, speed-reading teachers know that with proper training most persons can double their reading speed and increase their comprehension 10 to 50 per cent.

We are less concerned here with the mechanics of the thing than with the fact that such improvement is possible by conscious effort. You CAN change your speed. You CAN improve your understanding of what you read.

Fast AND Accurate

Joe was a student in an intermediate algebra class. He had troubles. He brought them to what we shall describe informally as Dr. Nason's Clinic for Lagging School Children.

His third grade teacher had told him to choose between being slow and accurate or fast and inaccurate. Since he had chosen to be slow and accurate, he now found it impossible to finish tests within the time allowed. He feared that any change in his rate of work would produce disastrous results.

"Look, Joe, you're producing disastrous results anyway," we pointed out. "So why not try the alternative that wasn't suggested to you? Try to be both fast AND accurate."

This was awful heresy, but Joe was ready to try anything.

"What do I do?"

"When you're working 'slow and accurate,' does your mind ever have space left over to think about other things?"

He admitted that when he worked slowly he tended to day-dream.

"All right then. The point is to make your mind and your pencil work so fast that there's no time or space in your brain for day-dreaming."

We gave him a test comparable to one in which previously he had completed 12 problems (nine correctly) in 50 minutes. This time, consciously trying to speed up his brain, he finished 20 problems in 40 minutes and got 18 right.

Presented with proof of the slowness, are mere excuses for marvelous new theory that speed plodding.

The truth is that you can control your thinking habits and, by controlling them, tremendously improve your learning.

(TOMORROW: Ten steps to better grades.)

Those old sayings, dignifying better grades.

## Elect Directors For Legion Post At Meredosia

MEREDOSIA — The Meredosia American Legion Post 518 held their regular meeting Monday night at the Legion Home with a large number of members present. Commander Chel Young presided for the routine business meeting.

Earl Hanford, who had been asked to prepare a list of materials and labor necessary to build a club room on top of the basement room, gave his report. The membership voted to incorporate.

Those elected to serve as directors with terms of one and two years were: Irvin Riening, William Evans, Andrew Duncan, Walter Alhorn, Kenneth Nunn, Melvin Knaack, and John Newman.

The following were named on the building committee: Harry Pirtle, John Newman, Irvin Riening, Harold Weber, Richard James, Andrew Duncan, and Maurice Kunzeman.

John Newman gave a final report on the picnic held in August in which a profit of \$1196.61 was realized. One half of the amount will be turned over to the Auxiliary. Meat and cheese sandwiches, coffee, and pon were served.

Rebekahs

Rebekah Lodge No. 151 of Meredosia met in regular session January 12. During the business meeting the semi-annual and annual reports were given. Final plans were made for installation to be held at the regular meeting January 26.

At the close of the meeting a social hour was held honoring the birthdays for November and December, 1960 and January, 1961. Those seated at the birthday table were: Mesdames Gus Becker, John Walsh, Charles Smith, Tom May, Earl Gregory, and Minnie Lefever. Assorted cookies, nuts, mints, and coffee were served by Mrs. Edward Irving and Mrs. John Nortrup.

**FINE-CAR FEATURES**

Comet is one of the least expensive compacts you can own! These are the facts. Comet costs less when you buy—up to \$331\* below other compacts. Comet gives you high resale value—up to \$617\* more than other compacts. That's why it pays to own a Comet. But that's not all. Comet has fine-car features, too.

**It's the first family-size compact** Longer wheelbase—up to 7.5" longer than other compacts—means more Comet room, not only in pleasurable comfort-for-six seating but in over 28 cu. ft. of trunk space—up to twice as much as other compacts.

**Comet's big-car ride is the comfort difference** Extra length also contributes to Comet's road-leveling ride. The refined new suspension and easier-action springs give Comet a better ride than many standard cars. And you'll find Comet turns, parks and handles almost as easily as a tricycle!

**Talk about economy and you're talking Comet** To save on gas, choose either of Comet's two thrifty engines. You change Comet oil only every 4,000 miles, get 10% better tire mileage, save on licenses and insurance. And Comet's super-enamel finish won't cost you a cent for waxing—never needs it!

### WCS Meeting Held At Home Of Mrs. Lloyd Moss

The Women's Society of Christian Service met on January 26, at the home of Mrs. Lloyd Moss. She was assisted by Mrs. Farrel Hansmire and Mrs. Annetta B. Scott.

The meeting was called to order by the president, Mrs. John Hadden who presided over the business session. The devotion and program entitled, "Recalling Our Heritage—Expanding Our Horizons," were given by Mrs. Otto Mason and Mrs. Mrs. Story. Roll call was answered by 12 members with a verse from "Proverbs."

Mrs. Armetta Scott gave a message on "Spiritual Life" and a few remarks by Mrs. Sherwood Eddy on "Living One Day At A Time." A letter of resignation was read from Mrs. Doyle Taylor, treasurer. It was accepted, and Mrs. Charles Brainer was elected to serve as the treasurer for the remainder of the term.

The society voted to have some kind of a supper in the spring at the church. The type of supper and the date to be announced later. The meeting was adjourned with prayer by Mrs. Sherwood Eddy.

Refreshments of strawberry dessert, nuts, cookies and coffee were served by the hostesses. The February meeting will be held at the home of Mrs. Donald Crabtree on the corner of East Michigan and Goltz.

GREENFIELD — Miss Myrtle Kakaika of Hawaii, a student at MacMurray College, spoke on the subject, "Customs in My Native Land" at a meeting of the PTA Thursday night.

Mrs. Finice Doyle was program chairman. The musical program was given by the high school boys chorus, under the direction of Ben Strode, unit school voice instructor. Mrs. Robert Lamb was hospitality chairman.

**Flag For School**

David Erthal, representing the 1959 class, presented the high school with a 50-star flag for use in the auditorium. Principal John Burch and Nancy Elmore, student council president, accepted the flag on behalf of the student body.

**Football Great**

Wilbert Wellhausen one of the best backfield men to ever perform for a Greenfield high school football team, has been given Honorable Mention on the list of high school stars picked by the "Wigwam Wisemen of America," a group of football enthusiasts of Oklahoma City, Okla. The group has been making selections of this type for the past 14 years and any boy who receives honorable mention is eligible to participate in the "PREP" football game to be played the third week in August in Memphis Tenn. This is quite an honor for the boys named as the 1959 team drew a total of 7,820 nominations from every point in the nation.

Mrs. Charles E. Burroughs, Mrs. Leo Price, Mrs. Gary Melvin, Mrs. Kenneth Woodkirk, Miss Lena Faulkner, Mrs. Richard Cole and Miss Mildred Cook, all past presidents of the American Legion Auxiliary attended a dinner meeting of the Past Presidents Parley of Greene-Jersey counties at Roodhouse Monday night.

Mrs. Paul Brewer of Seattle, Wash., and Mrs. Merle Emery of Nashville, Tenn. have arrived here to assist with the care of their mother Mrs. Nelle Skages, who is ill at the Hill Top Haven Home in White Hall.

**To Erect Archway**

At a meeting of the Fleur de Lis club, plans were made for erection of the archway at the Fleur de Lis Club Field. The entrance is being enlarged to accommodate two way traffic to and from the athletic field and the archway will also be enlarged from the former plans.

**Honor Wrights**

Mr. and Mrs. Frank Greer entertained at a carry-in dinner Sunday honoring Rev. and Mrs. F. V. Wright, who have returned to their home in Winchester following the Rev. Wright's interim pastorate of the Baptist Church.

Others attending were, Miss Helen Smith of Winchester, Mr. and Mrs. Melvin Greer of Carrollton, Mr. and Mrs. Allen Cole, Scottville, Mr. and Mrs. William Lahr, Miss Pearl Bernes, Kristen Neli and Mr. and Mrs. Amol Greer, Ruth Ann and Jane.

Ralph Dewey has returned home from the Boyd Memorial Hospital in Carrollton, after undergoing major surgery.

Mr. and Mrs. Charles Witt and Jeanne have been visiting her parents Mr. and Mrs. Robert Wood in Litchfield.

### Peppy Peppers Elect Officers

The Peppy Peppers 4-H Club met recently at the South Jacksonville village hall. The meeting was called to order by Peggy Seegar. The pledge of allegiance was given by Linda Coveny; Regina Markille led the 4-H pledge.

The election of officers was as follows: president, Lynda Sereno; vice president, Harriet Reuck; secretary, Cheryl McDaniel; treasurer, Linda Coveny; reporter, Carol Ann Becker; recreation chairman, Meri Sue Wallace; assistant, Peggy Seegar.

Program chairman, Carol Flynn; assistant, Leslie Colclasure; song leader, Regina Markille; safety chairman, Carol Viera; health chairman, Judy Robinson; hospitality, Connie Embody and Mary Sandberg.

The program committee was made up of Peggy Sullivan, Linda Lou Doane and Judy Stout.

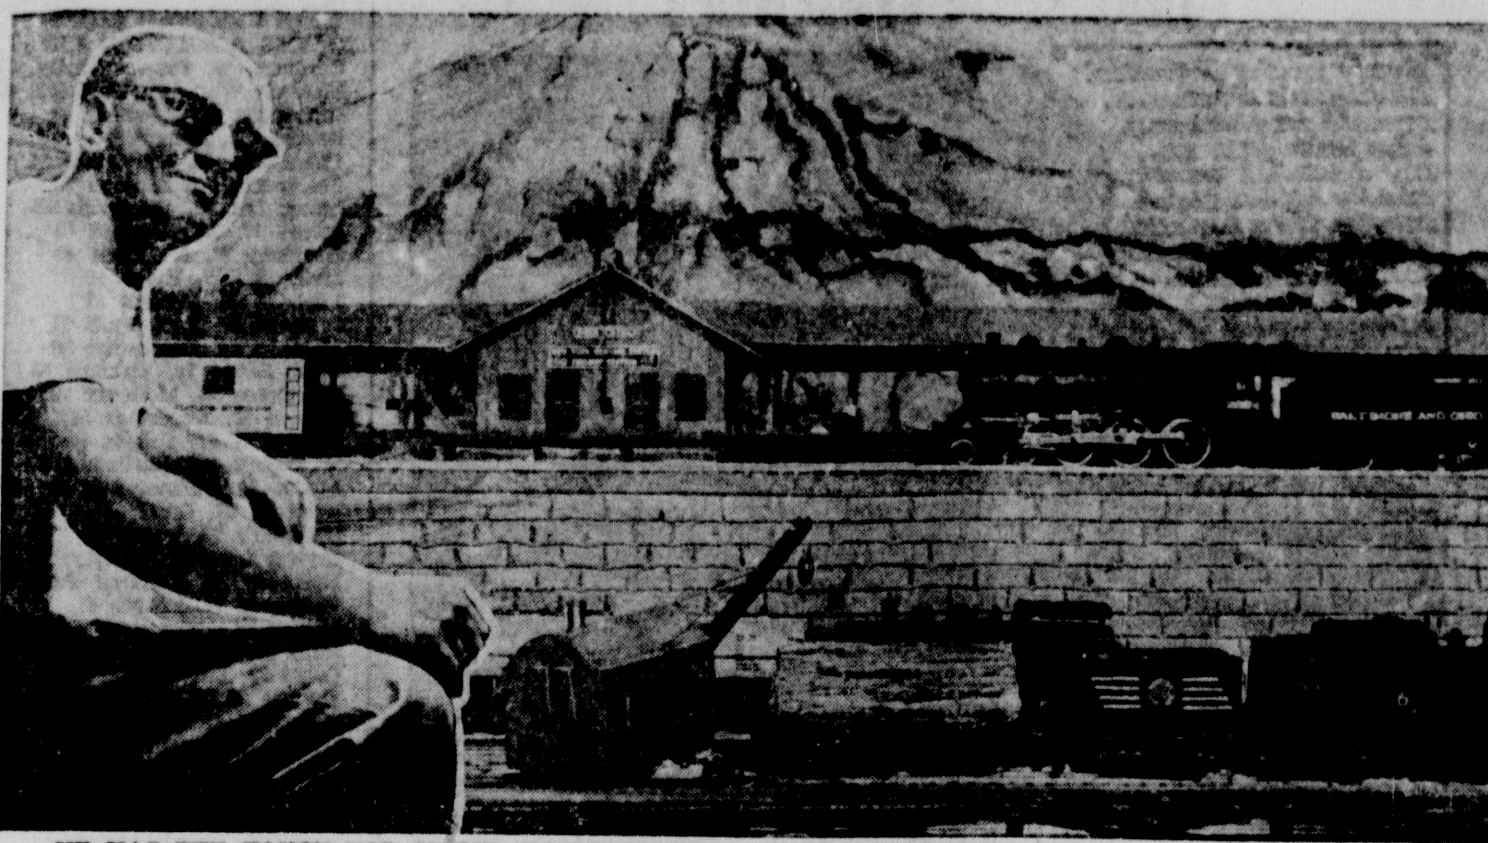

The club discussed how they could be of service to the community. Mrs. Kessler gave an interesting talk on handicrafts.

Three new members joined the club: Linda Coveny, Carol Viera, and Harriet Reuck.

The next meeting will be held February 4 at the village hall.

Big buffet salad: mix cooked frozen (or canned) baby green lima beans and snap beans with canned kidney beans, draining all of them well. Marinate in French dressing and then toss with mixed crisp greens just before serving.

**HE HAS THE TOUCH FOR MODEL RAILROADING—** Superimposed on a picture of the model he'll never see, is a photograph of William Frank, of Chicago, Ill. A machinist by trade, he lost his sight as a result of an accident in a bomb casing plant during World War II. Refusing to be sidetracked, he designed and helped to build

the layout and a day-night lighting effect for the railroad. In addition, Frank has racked up over 12,000 accident-free hours working in wood to help support himself, turning out such things as bowls and lamp bases with aid of home shop power tools. He uses a notched yardstick, a special band saw setup and special face plates for the lathe as aids.

### Churches Plan 'Prayer' Day In Roodhouse

ROODHOUSE — A planning meeting has been held by the three uptown churches, Methodist, First Baptist, and Christian, for the World Day of Prayer service to be held in the First Baptist Church the afternoon of Feb. 17 at 2 o'clock.

Serving on the committee were Mrs. Julian Sheppard, Jr., Mrs. Raymond Watkins, Mrs. Charles E. Martin, Mrs. Harvey Hodge, Mrs. John W. Roberts, Mrs. Howard Allen, Mrs. Wayne Elliott, Mrs. Harry McDonald and Mrs. H. L. Janviri. Mrs. Janviri was named chairman.

The theme for the World Day of Prayer is "Forward Through the Ages." The service will include a union choir and other features. More details will be announced at a later date.

During the meeting circle prayers were offered and the session was closed with prayer by Mrs. Watkins.

#### SERVING STEW

Vary your ways of serving stew. Serve it over hot fluffy rice, split squares of corn bread or hot biscuits. Or give it a meat pie topping of pastry, biscuit dough or mashed potatoes.

Your youngsters will like eggs baked in custard cups. Spoon a tablespoon of cream into each buttered cup before breaking in the egg. Top with buttered crumbs and bake in a slow oven until the eggs are as firm as your family likes them.

Bake heart shape sugar cookies for a Valentine party for children. Frost them with white icing, then with icing that has been tinted red inscribe all sorts of things on the fronts of the cookies, such as "John Loves Mary," using the guests' names.

**DRAMATIC—Eva Sloan,** bearer of the title of "Miss Jacksonville Beach," arrives in New York. She intends furthering her dramatic career in the big city.

Turn a can of ripe olives into a glass jar with a screw-top cover, add a clove of crushed garlic. Refrigerate overnight so flavors will blend. Drain and serve cold for a flavorful tidbit, or add to a tossed green salad.

BY OSWALD JACOBY

Written For Newspaper Enterprise Assn.

The South hand is taken from a new book by old-time bridge expert, Sam Fry, with the ambitious title, "How to Win at Bridge with Any Partner." The book won't quite live up to its title, but it does stress the all-important point that you must play with your partner all the time.

I have filled in the other three hands myself, and as you can see, six hearts is a lay down. South ruffs the opening club lead; draws trumps with three leads and plays two spades and a diamond. West makes his ace but that is all.

Sam points out that South's bid of five clubs is the way to get to the slam, but before he bids it South had better be sure that North will understand the bid. If North is going to think that South is showing club support, North is likely to pass at five clubs and away will go slam, game, rubber and partnership.

Theoretically, South's five club bid does show a club void. South would have redoubled two clubs if he had clubs. Practically, it is a matter of just what North is going to think about it.

Incidentally, South's five clubs is a typical Fry bid. Most players would be happy to settle for game with the South hand, but in 30 years that I have played with him, Sam has been consistently one of our most aggressive bidders.

### CARD SENSE

Q—The bidding has been:

North	East	South	West
1 ♠	Pass	1 ♠	Pass
3 ♠	Pass	?	?

You, South, hold:

♠ K 10 4 3 ♥ 5 ♦ A 9 7 6 5 ♣ 4

What do you do?

A—Bid three diamonds. You want to tell your partner that you have diamonds in case he wants to play no-trump.

**TODAY'S QUESTION**

Your partner continues with a bid of three hearts. What do you do now?

#### GETS HAF A PIN

LANSING, Mich. (AP) — Phyllis Baier, secretary of the Sportsman's Club League, got half a pin in a recent game at Milazzo Lanes. She dropped the top half of a stubborn pin and left the bottom half standing.

Roger Kaiser, captain of Georgia Tech's basketball team, comes from Dale, Ind. He led the team in scoring last season, averaging 22.8 points a game.

#### ORANGE DREW BETTER

SYRACUSE, N. Y. (AP) — The 1960 Syracuse football team drew 132,114 fans to four home games for an average of 33,119. The average was almost 3,000 fans more per game over 1959. Top crowd was 42,290 for the Penn State game.

## Plan 125th Anniversary Celebration In Virginia

VIRGINIA—Citizens in general and representatives of various civic organizations are making plans for the 125th anniversary celebration of the city of Virginia, later in the year. The 100th anniversary was celebrated 25 years ago and was a memorable affair. W. R. Hiernan was then chairman of the Centennial celebration and has again been chosen to act as chairman for the 125th anniversary celebration.

Many interested citizens met in the Agenda room of the Highway Cafe to discuss plans and choose the chairman. Mr. Hiernan, and Mrs. Henry Carls, secretary, treasurer, Reginald Jokisch.

Another meeting of the group has been called for Tuesday, February 7, at the American Legion Hall.

The Cass County Soil Conservation District will hold its 14th Annual Meeting at the American Legion Hall in Virginia, on January 31, at 8 p.m. The meeting will be preceded by a supper at 6:30 p.m. Wm. H. Brown, Director of Natural Resources for the I.A.A. will give the main address.

During the business session two directors will be elected for a two year term. The directors whose terms expire are: W. S. Campbell, Ashland, and Homer Fricke, Arentville. Cheslea Taylor, Virginia.

Tickets for the supper can be purchased from the directors or at the Farm Bureau Hall, in Virginia.

Mrs. Jesse Whitte was the guest of her aunt, Mrs. Troy Williams, of Arentville, Saturday and Sunday. On Sunday, Mrs. Williams celebrated her 81st birthday anniversary.

Mrs. Anna Farmer is a surgical patient at St. John's Hospital, in Springfield.

Mrs. Winifred Huff Gill is a patient at Hackley Hospital, in Muskegon, Michigan.

### Brotherhood Elects Officers At Roodhouse

ROODHOUSE—The Men's Brotherhood of the Barrow Baptist Church elected officers Friday night at the church as follows:

president, Buell Steelman; vice president, Donald Smith; secretary-treasurer, James Doyle.

The Brotherhood observed family night on this occasion with James Doyle and Donald Smith in charge of arrangements for the potluck supper and program. A large crowd with a number of out of town guests attended the meeting. Miss Nita Ford of Carrollton spoke on her trip around the world last summer and showed slides.

**OES**

Mrs. Alfred Sutton, assisted by Mesdames I. E. Close and Maurice Harp, entertained the Past Matrons Club of the OES at a Valentine party held at the Sutton home, Friday night. Prizes during the social hour were awarded to Mesdames Howard Thompson, Sutton, and Vincent Reager.

### Pfc. H. Wallace In Cordon For Inauguration

PORT BELVOIR, Va. (AHTNC)—Army PFC H. Wallace Jr., 21, whose parents, Mr. and Mrs. Merle H. Jackson, live on Route 2, Jacksonville, Ill., was a member of a special honor cordon which served during the inauguration ceremonies for President John F. Kennedy in Washington, D.C., Jan. 20.

Wallace was one of the 426 outstanding soldiers from Port Belvoir, Va., selected to line the inauguration parade route from the Capitol to the White House. His selection was based on his soldierly appearance, military bearing and performance of duty.

Regularly assigned as a heavy-equipment operator in the 497th Engineer Company at the fort, Wallace entered the Army last March and completed basic training at Fort Leonard Wood, Mo. He attended Jacksonville High School. Before entering the Army, Wallace was employed by the Her-rin Sign Co.

**GIANTS TO FACE YANKEES**

NEW YORK (AP) — The San Francisco Giants and New York Yankees will meet in a charity exhibition game in Yankee Stadium Monday night, July 24. It will be their first meeting since the Giants moved west after the 1957 season. The Giants will be coming east from Cincinnati and then move to Pittsburgh after facing the Yankees.

**SECRETARY, MAKE A NOTE—**If the boss sometimes (not often, but sometimes) snarls, snaps and growls, could be it's not meanness but tension. What the harried executive needs is some sort of physical exercise to work off pressure or tenseness during the day. Executive Furniture Guild has designed a six-by-six-foot cubicle called the Tension Easer Suite. Feeling anxiety, fear, frustration or fatigue overcoming him, the boss ducks inside for a minute or two and chins himself, pedals a bike, does pushups against an inclined wall or tucks his toes in a catch and does situps. It may not build muscles, but it could prevent an ulcer.

# Ohio State, Indiana Take To The Road With Perfect Records

By JOE MOOSHIL  
Associated Press Sports Writer

Ohio State's seemingly invincible Buckeyes and the Hoosiers of Indiana take to the road tonight with the only perfect records in Big Ten basketball competition.

The Buckeyes (4-0), ranked No. 1 nationally, will be at Wisconsin, and Indiana (2-0), coming away from a sluggish 81-78 victory against Iowa Saturday, will be at Minnesota.

Ohio State shouldn't have too much trouble at Wisconsin. The Badgers, riddled by a loss of key players who either dropped off the team or became scholastically ineligible, fell before Loyola of Chicago Saturday night, 87-79, after holding a 47-37 halftime lead.

Ohio State, meanwhile, crushed Purdue, 92-62, for its fourth Big Ten victory and its 19th straight triumph over a two-season span. Five Buckeyes, led by Larry Siegfried's 21 points, scored in double figures.

Purdue's Terry Dischinger outscored his Olympic teammate Jerry Lucas, 26-17, but Purdue had little more to offer.

Indiana might stumble at Minnesota. The Gophers started slow-

ly but have won three of their last four conference games and slipped down Northwestern, 66-49, Saturday.

Tom McGrann scored 19 points for the Gophers, who were in front 35-29 at intermission and made it 45-29 before Northwestern could score in the second half. Northwestern came within two points in the final minute, but a basket by Dick Erickson and three additional free throws sealed the outcome.

Tonight's only other game finds Michigan State at Illinois. The Illini were impressive Saturday with a 77-43 victory over Notre Dame in the first game of a Chicago Stadium doubleheader in which Wisconsin faltered before Loyola in the second game.

Ohio State, apparently heading for its second straight Big Ten title, plays two road games before returning home. After Wisconsin, the Buckeyes face Michigan Saturday and then return to Columbus for a key battle against Indiana Feb. 6.

Ohio State's big test, however, will come later in the season. On Feb. 18 the Buckeyes will be at Iowa (4-1), and two days later Ohio State will be at Indiana.

## Gary Player First In San Francisco Open

By P. D. ELDRED  
Associated Press Sports Writer

SAN FRANCISCO (AP) — A cool South African lad, who idolizes Bobby Locke and intends to play at least 20 years more as a golf pro, was \$9,500 wealthier today

after winning the \$57,000 San Francisco International Open with a blazing six-under-par 66 windup. Husky Gary Player with almost machine-like accuracy scored six birdies in his final round Sunday to come from four strokes behind leaders George Bayer and Ted Kroll to win by two strokes, in a pouring rainstorm.

The 25-year-old Johannesburg star — on his seventh American tour since 1955 — finished 12 under par for his four rounds, taking a total of only 272 strokes.

Bayer, the 240-pound ex-Washington football player who shared the lead through three rounds, shot even par 71 but he couldn't cope with young Player's sensational birdie shooting in the rain. Bayer settled for 274 while Kroll, the tournament veteran who had started the last round tied with Bayer, fell back to 276.

Don Whit came up strong over the sudden 6,672-yard Harding Park mire with a five-under-par 66 to tie Bayer at 274. The two collected \$3,800 each.

"I've played all over the world and never encountered worse weather than we had today," Player said.

Don January and young Al Gelberger were tied at 276, Jay Herbert came up even with Kroll at 276 and a stroke farther back at 277 came Arnold Palmer, Billy Casper, Jackie Burke Jr., Ken Venturi and Canadian Stan Leonard.

Gardner Dickinson and Charlie Sifford, the only Negro playing on the tour and the only one competing in this tournament, were tied at 278.

In taking \$9,000 first prize money and \$500 additional in the one-day pro-amateur event that preceded the International, Player boosted his 1961 tournament earnings to \$12,672.

**Celtics Appear To Have Fifth Title Sewed Up**

BOSTON (AP) — Barring a complete collapse, the Boston Celtics have their fifth straight National Basketball Association Eastern Division title in the bag.

That was the word from the happy, weary defending world champions after Sunday's nationally televised 128-115 triumph over challenger Philadelphia. It gave Boston a six-game division lead—the largest of the season—over the Warriors.

"They'll never catch us now," captain Bob Cousy opined. "Not now. Not unless we all drop dead."

Cousy put on one of his typically brilliant exhibitions in a first quarter scoring burst that quickly put the game out of reach.

Boston ran off a string of 23 straight points, 11 of them by Cousy, in the first period burst as Philadelphia went 6 minutes and one second without scoring.

That was the end of it.

Stone-cold Philadelphia hit only five of 23 shots in the first period while Boston struck on 16 of 30 attempts from the floor. Boston took a 38-16 quarter lead and boosted it up as much as 40 points before a late scoring burst by Walt Chamberlain cut the final score. He finished with 46, but got only four in the important first period.

Meanwhile, the St. Louis Hawks, seeking their fifth straight Western title, opened a 101-game lead over runner-up Detroit with a pair of weekend victories while the Pistons were losing to Los Angeles 137-118 Sunday.

The Hawks whipped Cincinnati, still plagued by the absence of rookie star Oscar Robertson, 136-116 Saturday, then thumped Syracuse 128-106 Sunday.

Bob Pettit and Clyde Lovellette scored 25 each against the Nets as St. Louis stretched its winning streak to four games. Dolph Schayes tallied 26 points for Syracuse.

Rod Hundley, scoring 16 of 37 points in the third quarter, led a 34-point burst by the Lakers that gave them a clear edge over the Pistons. Los Angeles' Elgin Baylor led both teams with 34 points.

## Five College Fives Waiting For Leading Buckeyes To Stumble

By DON WEISS  
Associated Press Sports Writer

One week doesn't make a basketball season, but this one could for St. Bonaventure, Bradley, North Carolina, Duke, and Southern California—a havoc-wreaking handful just waiting for national leader Ohio State to stumble.

While the best small Bucks take the 19-game winning streak on the road against Wisconsin (Monday) and Michigan (Saturday), a pair of second-division Big Ten clubs, the others have some championship elimination matches coming up in probably the most important week of the season.

St. Bonaventure (14-1), second-ranked nationally, plays at Marquette Tuesday, then heads for New York's Madison Square Garden for a showdown with third-ranked Bradley (14-1) on Thursday. Bradley first goes to Cincinnati, a surging club with a 9-game winning streak, for a Missouri Valley Conference challenge on Tuesday.

Fourth-ranked North Carolina and fifth-ranked Duke renew their battle for the regular season title in the Atlantic Coast Conference—the only title the probation-penalized Tar Heels have to aim at this time around.

The Tar Heels, 12-2 with a 10-game winning streak, play Clemson Tuesday and Maryland Thursday before colliding with Duke at Durham on Saturday. Duke, its only loss in 15 games to North Carolina in the Dixie Classic final, plays at South Carolina Tuesday.

Ninth-ranked Southern California, now 14-2 and unbeaten in its last seven games, defends its Big Five Conference lead against runner-up UCLA Friday and Saturday in the two-game set that could decide which goes into the NCAA tournament.

All the other conference teams are in action during the week as well as the independent clubs that are trying to build up credentials for consideration for the non-automatic berths in the two post-season tournaments—the NCAA and the NIT.

## Max Carey, Billy Hamilton Selected To Hall Of Fame

By JACK HAND  
Associated Press Sports Writer

NEW YORK (AP)—Max Carey and the late Billy Hamilton are the latest additions to baseball's Hall of Fame. The two former National League center fielders, famed for their base-stealing ability, will be inducted formally July 24 at the Hall of Fame in Cooperstown, N.Y.

Carey, 70, holder of the modern National League record for stolen bases with 738 in a 20-year career from 1910 to 1929 with Pittsburgh and Brooklyn, said in Miami Beach, Fla., he was "happy and proud of the honor of being selected." Max expects to be on hand personally when his plaque is dedicated.

Hamilton, who died in 1940, was one of the truly great stars of the pre-1900 days of baseball. He had a lifetime batting average of .344 while playing with Philadelphia and Boston from 1890 to 1901.

Known as "Sliding" Billy, he stole 797 bases, the all-time league record, in that span and also stole 140 with Kansas City in the American Association which considered itself a major league. If those were counted his total would be 937.

The two men were named Sunday by the veterans' committee, headed by Warren Brown of the Chicago American, which considers only men who have been inducted as players for at least 30 years. It was their first chance to honor Carey who previously had been under the jurisdiction of the baseball writers who select from among those out of baseball at least five years but not more than 30.

**Flat Tracks Fail To Scare Lawrence, Moran**

WASHINGTON (AP)—Flat tracks obviously don't frighten Al Lawrence or Ed Moran.

Each scored decisive victories on unbanked boards in the Star Games Saturday night.

Lawrence, the little Australian, taking a radio-TV course at Houston University, turned in an outstanding 8:54.2 in the 2 mile. Moran, Penn State graduate student whose 4:08.3 mile here last year is the fastest known on a flat indoor track, repeated with a satisfactory 4:11.5 for the eight laps.

Together with Bob Brown of Penn State and Hayes Jones, fresh out of Eastern Michigan, they dominated the games at the D.C. Army. Brown swept the 70, 80 and 100-yard sprint series, while Olympic bronze medalist Jones equalled a meet mark of 8.2 in the 70-yard hurdles.

Other Star-Games winners were Don Bragg, whose 15-1 pole vault was the highest of the indoor season to date; Frank Bowens of Winston Salem Teachers, a repeater in the 600 at 1:13.7; Cary Weisiger of the Quindoc Marines with a 2:12.7 for the 1,000. Bob Gardner of Quindoc with a high jump of 6-6 and Ronald Zinn, a West Point cadet, with a mile walk of 6:40.8 for another meet record.

**Rudolph Wins Skating Title**

ST. PAUL, Minn. (AP) — The 20-year speedskating empire of Ken Bartholomew crumbled on the bell lap of the mile race, and a Chicago teen-ager skated the old master out of a title.

Eddie Rudolph, a 19-year-old senior at Glenbrook High in suburban Chicago and a 1960 Olympian, won the senior men's outdoor championship at Lake Como Sunday.

The first day leader by two points, Bartholomew at 40 couldn't stand the gaff when youngsters who weren't born when he won his first national started piling on the pressure.

He failed to score a point in Sunday's four races and wound up in a fourth place tie behind Rudolph's 15, the 13 of Arnold Uthman of Yonkers, N.Y., and the 11 of Floyd Bedbury of St. Paul. Bartholomew and Terry McDermott of Essexville, Mich., had eight.

A new champion emerged also in the senior women's division, where schoolmarm Jeanne Ashworth, 22, Wilmington, Miss., dethroned Mary Novak, of Lombard, Ill., by sweeping the 220, 888 and mile.

Senior Bob Berry, 26, UCLA basketball guard, is from Indianapolis, captain of the Yale squash team, twice.

**Southern Faces Tennessee A&I Tuesday Night**

By THE ASSOCIATED PRESS

Southern Illinois, ranked fourth among small college basketball powers and heading for an early clinching of the Illinois Intercollegiate Athletic Association basketball title, meets top-ranked Tennessee A&I Tuesday night.

The Salukis will have the home-court advantage when they meet the team rated No. 1 among small college powers. Southern gets its chance to avenge a 95-93 loss to the Tennessee team in the Quincey Holiday Tournament this season.

Both teams were victorious in their only battles last week while preparing for the big game. Southern scored an 86-79 victory at Indiana State Friday night as Charles Vaughn connected for 31 points.

Tennessee State, getting the feel of things, hammered Eastern Illinois, 92-80, Saturday night at Charleston. It gave Tennessee an 18-1 season record.

Following this important battle, Southern turns to the job of winning the IIAA title. The Salukis should have it easy since they'll be at home over the weekend against Eastern Michigan and Central Michigan.

Central has a 1-5 record and Eastern Michigan is 0-6. Central's lone triumph was over Eastern Michigan. Southern has a 7-0 mark.

Illinois State Normal, in second place with a 5-3 record, takes on defending champion Western Illinois (3-3). Should Western defeat Normal and Southern win both of its games, the Salukis would clinch at least a tie for the championship.

No IIAA games were scheduled last week, but some of the teams engaged in non-conference activity. Eastern Illinois defeated Millikin 87-79 before losing to Tennessee State, and Western Illinois lost to Northeast Missouri, 79-74, before trouncing Chicago Teachers, 103-55. Northern Illinois dropped an 80-78 decision to Washburn.

exiled leader of the Portuguese National Liberation movement, to keep the Santa Maria in international waters until after the inauguration of Brazilian President-elect Janio Quadros Tuesday.

Quadros gave assurance that if Galvao sails into a Brazilian port for safe discharge of the passengers, he will not seize the \$16.6 million liner for return to her Portuguese owners. He also offered Galvao a haven.

The outgoing administration of President Juscelino Kubitschek decided Saturday to offer Galvao political asylum if he entered Brazilian waters, but to turn the Santa Maria back to her Portuguese owners, the Colonial Navigation Co.

The United States had proposed that Kubitschek permit the Santa Maria to enter a Brazilian port to discharge her passengers without threat of seizure.

U.S. officials in Brazil appeared relieved at the stand taken by Quadros, who succeeds Kubitschek at noon Tuesday in a ceremony at Brasilia, the new capital.

## New York Stock Market

NEW YORK (AP) — The stock market made a substantial advance in heavy trading early this afternoon.

The Associated Press average of 60 stocks at noon was up 1.10 at 233.70 with industrials up 1.70, rails up .40 and utilities up .60.

Key stocks rose from fractions to 2 points or so.

Aircraft-missiles, steels, motors, rails, utilities, coppers, electrical equipments, tobaccos, chemicals and electronics were among the gainers.

Wall Street was anticipating a program of antirecession steps by President Kennedy. The list also was heartened by the strong performance of market averages on Friday when upside barriers were hurdled.

Corporate bonds advanced. U.S. government bonds were firm.

**GRAINS CLIMB TO HIGHEST OF SEASON**

CHICAGO (AP) — A renewed flurry of buying sent grain futures prices sharply higher again in the early afternoon today after they had returned somewhat from a strong opening on the Board of Trade.

All commodities showed gains in excess of a cent a bushel. Soybeans were up as much as five cents at times in spots, corn up more than three cents and rye up four at the best.

After holding within narrow fractional ranges most of the session, wheat quickly ran up an advance of more than two cents on new crop months following issuance of a Santa Fe Railroad report saying moisture is needed in much of the winter crop area.

Estimated carlot receipts were wheat 14 cars, corn 100, oats 20, rye 10, barley 75 and soybeans 102.

## State Begins Drive For Execution In Triple Slayings

(Continued From Page One)

Incent Chicago business executives, were slain while on a brief vacation in the state park. All lived in Riverside, a Chicago suburb.

They disappeared March 14, shortly after registering at the park lodge and changing into hiking clothes.

Searchers came upon the partially clad and beaten bodies in a shallow cave in St. Louis Canyon two days later.

The death weapon, a heavy branch from a tree, was found near the victims.

Hundreds of persons, including Weger, who was employed as a dishwasher at the park lodge at the time, were questioned and released.

Nearly eight months of intensive investigation followed. Weger was questioned several times during that period and submitted voluntarily to lie detector tests. He was not held.

On Nov. 17 Sheriff Ray Eusey had Weger picked up again for another round of questioning. He shortly announced Weger had admitted the killings. Weger then took authorities through a detailed re-enactment in St. Louis Canyon. Scores of reporters and photographers saw and heard him then.

In the statement he later repudiated, Weger cited robbery as the motive for the slayings. He said he was forced to kill the women when they resisted.

He said he removed parts of the victim's clothing to disguise the slayings as sex crimes.

Weger lived in nearby La Salle with his teen-age wife and their two children.

## Pleads Guilty To Embezzling Of \$2 Million

ST. LOUIS, Mo. (AP) — Mrs. Burnice Iverson Geiger, accused embezzler of \$2 million from her father's bank, pleaded guilty of 35 counts in U.S. District Court today.

Judge Henry N. Graven deferred sentencing pending a pre-sentencing investigation and continued bond at \$10,000. She did not immediately post bond.

She could conceivably get 175 years in prison. The penalty for embezzlement is five years in prison or \$5,000 fine or both on each count.

Mrs. Geiger, 58, assistant cashier and a member of the board of Sheldon National Bank, had waived indictment by a grand jury which was scheduled to convene today.

She also waived reading of a 36-page indictment filed by U.S. Dist. Atty. F. E. Van Alstine.

The entire proceedings took about 10 minutes. Mrs. Geiger, daughter of Mr. and Mrs. W. P. Iverson of Sheldon, was escorted the one block from the county courthouse to the federal building by U.S. Deputy Marshal Robert Bailey. Miss Dorothy O'Neill, a matron in the sheriff's office, and Chief of Police James O'Keefe.

Mrs. Geiger was nattily dressed in a green velvet dress, a brown fur-trimmed coat and a tan dress. She had a slight smile on her face during the walk to court.

It was the first time she has left her jail since her arrest Jan. 16 when federal bank examiners uncovered the \$2,126,850 shortage at Sheldon National Bank.

## Wants Firmer Defense

(Continued From Page One)

advocated during the presidential campaign.

The President said that barring development of urgent national defense needs or a worsening of the economy, proposals he advanced in all fields "will not of and by themselves unbalance the budget" he inherited from the Eisenhower regime. It calls for outlay of \$80.9 billion and a surplus of \$1.4 billion in the fiscal year starting July 1.

However, Kennedy made it plain he is not blindly wedded to the idea of a balanced budget.

"We will do," he said, "what needs to be done. For our national household is cluttered with unfinished and neglected tasks."

In the monetary field regarding the balance of payments problem and the related flow of gold from the United States, Kennedy promised new steps to ease the situation.

But he also said: "This administration will not distort the value of the dollar in any fashion. That is a pledge. This administration intends, in short, to back up all our efforts abroad, and to make certain that, in the future as in the past, the dollar is 'as sound as a dollar.'"

Speaking of the Communist threat, Kennedy said that during his first 10 days in office he had been staggered to learn of "the harsh enormity of the (international) trials through which we must pass in the next four years."

As a result of a global review with key advisers, Kennedy said, he has instructed Secretary of Defense Robert S. McNamara "to reappraise our entire defense strategy" and make a preliminary report by the end of February.

Kennedy pictured the Communist menace as so serious that he has ordered an immediate strengthening of defenses on three fronts—Polaris submarines, missiles and the air-lift operation.

"I speak today," Kennedy said, "in an hour of national peril and national emergency. Before my term has ended, we shall have to test anew whether a nation governed and organized such as ours can endure."

"The outcome is by no means certain. The answers are by no means clear."

Kennedy said "we must re-examine and revise our whole arsenal of tools" for dealing with the threat to the free world—economic, political and diplomatic as well as military tools.

"We are moving into a period of uncertain risk in which both the military and diplomatic possibilities require a free world force so powerful as to make any aggression clearly futile," Kennedy said.

In the field of economic aid abroad, he called the problems towering and unprecedented.

"The response must be towering and unprecedented as well, much as lend-lease (in World War II) and the Marshall plan (of the post war years) were."

Kennedy singled out Latin-American countries for special aid, after saying that "Communist agents seeking to exploit that region's peaceful revolution of hope have established a base on Cuba, only 90 miles from our shores."

In the political and diplomatic areas, Kennedy noted he already has taken steps aimed at expanding and coordinating the nation's disarmament effort.

"The deadly arms race, and the huge resources it absorbs, have too long overshadowed all else we do. We must prevent that arms race from spreading to new nations, to new nuclear powers and the reaches of outer space."

Kennedy said further that in this same general area: "This administration intends to explore promptly all possible areas of co-operation with the Soviet Union and other nations to invoke the wonders of science instead of its terrors." There he borrowed a phrase from his inaugural address.

Reporting on his study of world problems since taking office, the President said: "Each day the crisis multiplies. Each day their solution grows more difficult. Each day we draw nearer the weapons spread and hostile forces grow stronger."

"I feel I must inform the Congress that our analyses over the last 10 days make it clear hat in each of these principal areas of crisis—the tide of events has been running out and time has not been our friend."

"In Asia, the relentless pressures of the Communist Chinese menace the security of the entire area," Kennedy said.

"In Africa, the Congo has been brutally torn by civil strife. . . . In Latin America, Communist agents have established a base on Cuba."

"In Europe, our alliances are unfulfilled and in some disarray. The unity of NATO has been weakened by economic rivalry and partially eroded by national interest. . . ."

Over-all, Kennedy said, the first great obstacle to solution of these problems "is still our relations with the Soviet Union and Communist China."

"We must never be lulled into believing that either power has yielded its ambitions for world domination," he added.

As for his orders for a three-way speedy bolstering of the na-

tion's defenses, Kennedy said: "The Polaris submarine construction program pace will be accelerated by nine months by using unobligated ship-building funds. This will add units to a fleet 'that possess sufficient powers of retaliation, concealed beneath the seas, to discourage any aggressor from launching an attack on our security.'"

Stepping up the missile program calls currently for improved organization and decision making—on cutting down wasteful duplications and time lag that have handicapped the whole family of missiles.

Smith had offered to clear the five major Kennedy legislative proposals and also to give up the committee's power to prevent bills from going to House-Senate conferences in return for leaving his committee alone.

But Rayburn said, "Five bills is just a couple of weeks' work. We've got a two-year session coming up, and I've got to look at the long haul."

"I don't know what bills are going to come up, but I think the newly elected President has a right to get his legislative program considered in the House."

"And I think that with a Rules Committee as composed now it couldn't be done. A committee divided 6-6 can't do business."

The Rayburn plan would add two Democrats and one Republican to the committee. The two new Democrats presumably could be counted on to vote with the administration. Bills thus could be freed for action by an 8-7 vote, even if the new Republican joined the conservative coalition.

**Recommendations Here And Abroad**

(Continued From Page One)

Appropriation of \$500 million for Latin-American development.

A new interdepartmental task force under the State Department to coordinate policies related to the Americas.

Expansion of the food-for-peace program and immediate dispatch of a food-for-peace mission to Latin America.

Formation of a national peace corps.

Increased authority from Congress to use economic tools in eastern Europe.

Calling for increased support of the United Nations, Kennedy said the United States intends:

To enlarge and strengthen its own U. N. mission.

To help insure that the United Nations is properly financed and that the integrity of the office of secretary-general is maintained.

**SCIENCE**

Kennedy invited all nations, including the Soviet Union, to collaborate:

In developing a weather forecasting program.

In a communications satellite program.

In preparation for probing Mars and Venus.

In a greater effort to make the fruits of science available to all.

**Cards of Thanks**

I wish to thank the nurses, nurse aides and my doctor for their kind attention given me while a patient at Our Saviour's Hospital; also thanks to friends and relatives for their nice flowers, cards and visits.

Mrs. Lucy Kinnett

# WHAT EVER HAPPENED TO BABY JANE

By Henry Farrell

THE STORY: Blanche Hudson is terrified at the thought of her sister Jane who is in a car accident at the peak of her film career and now lives in her own right before Blanche's career even began. Blanche realizes that Jane is jealous and hates her.

VII  
Instinct, perhaps, had prompted her to call the doctor, or she may have recalled Mrs. Stitt's insistence that she consult the doctor about Jane. She had not stopped, though, to consider her motives. Dialing the number, she had pressed the receiver to her ear and breathlessly waited.

Had she not been so nearly in a state of shock, she would have known instantly that something was wrong. As it was, fully half a minute passed before she realized that the phone was dead.

At first she simply couldn't believe it; it was impossible that the instrument should fail her just when she needed it so desperately. And then, with a new start of panic, she understood what had happened: Jane had taken the phone downstairs off the hook to prevent her calling out. At the same moment that this disquieting bit of knowledge came into her mind, she became aware, as before, of the soft sound of breathing on the line.

A moment passed, two. The breathing continued, marking Jane's listening presence at the phone in the lower hallway. Blanche shook her head in all toward communicativeness. As insane, nearly as making a salad of a dead bird, "Jane!" she cried out suddenly. "Jane!"

The sound of her voice struck sharply against the silence there in the hallway.

eye there appeared two monstrous mounds of white horror in the shadows beyond the light. And then, taking up the dreadful lunch tray, Jane, still without a glance in Blanche's direction, turned and made her way out of the room. Not until her footsteps had faded off down the stairs did Blanche let the book fall from her trembling hands back into her lap.

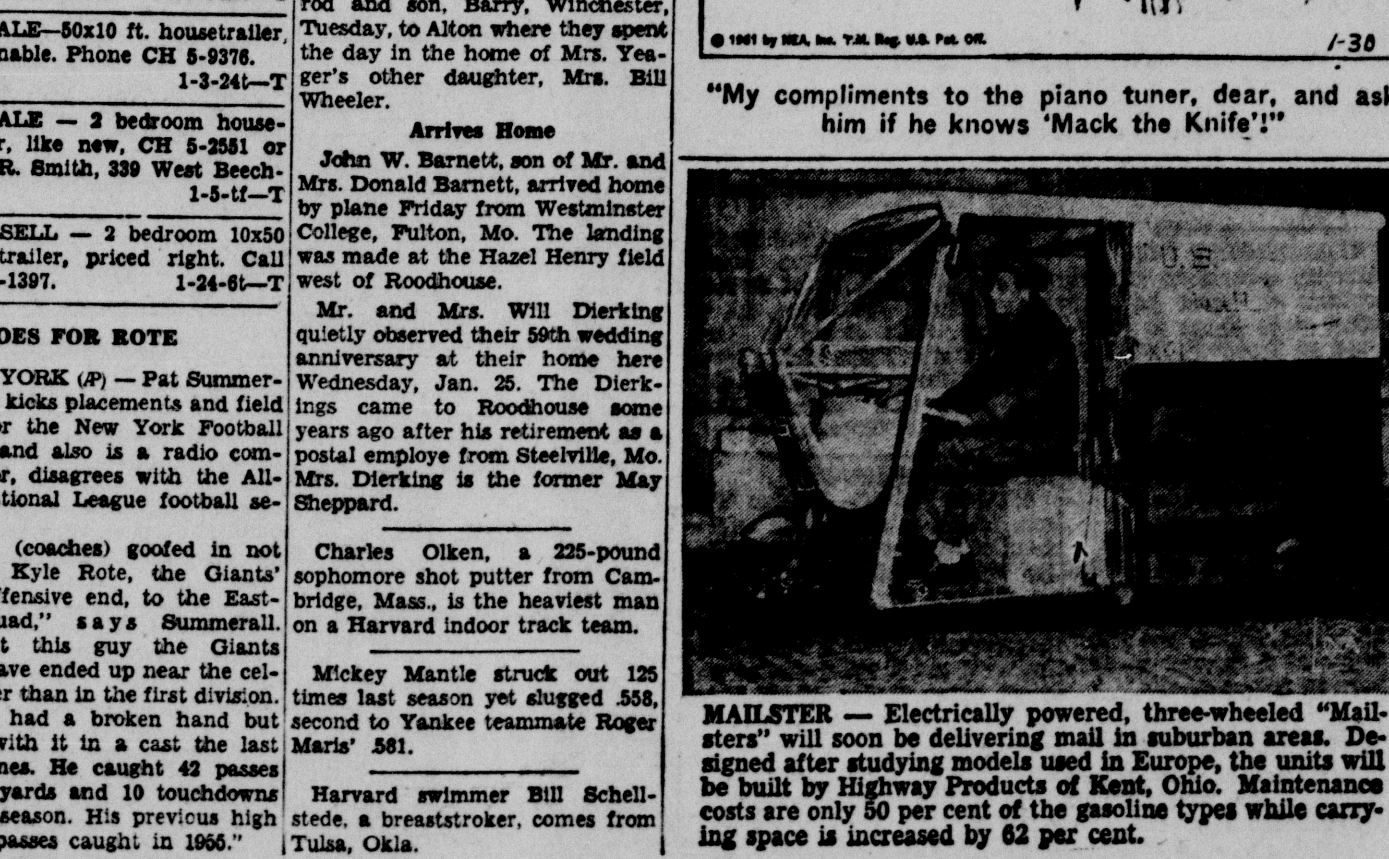

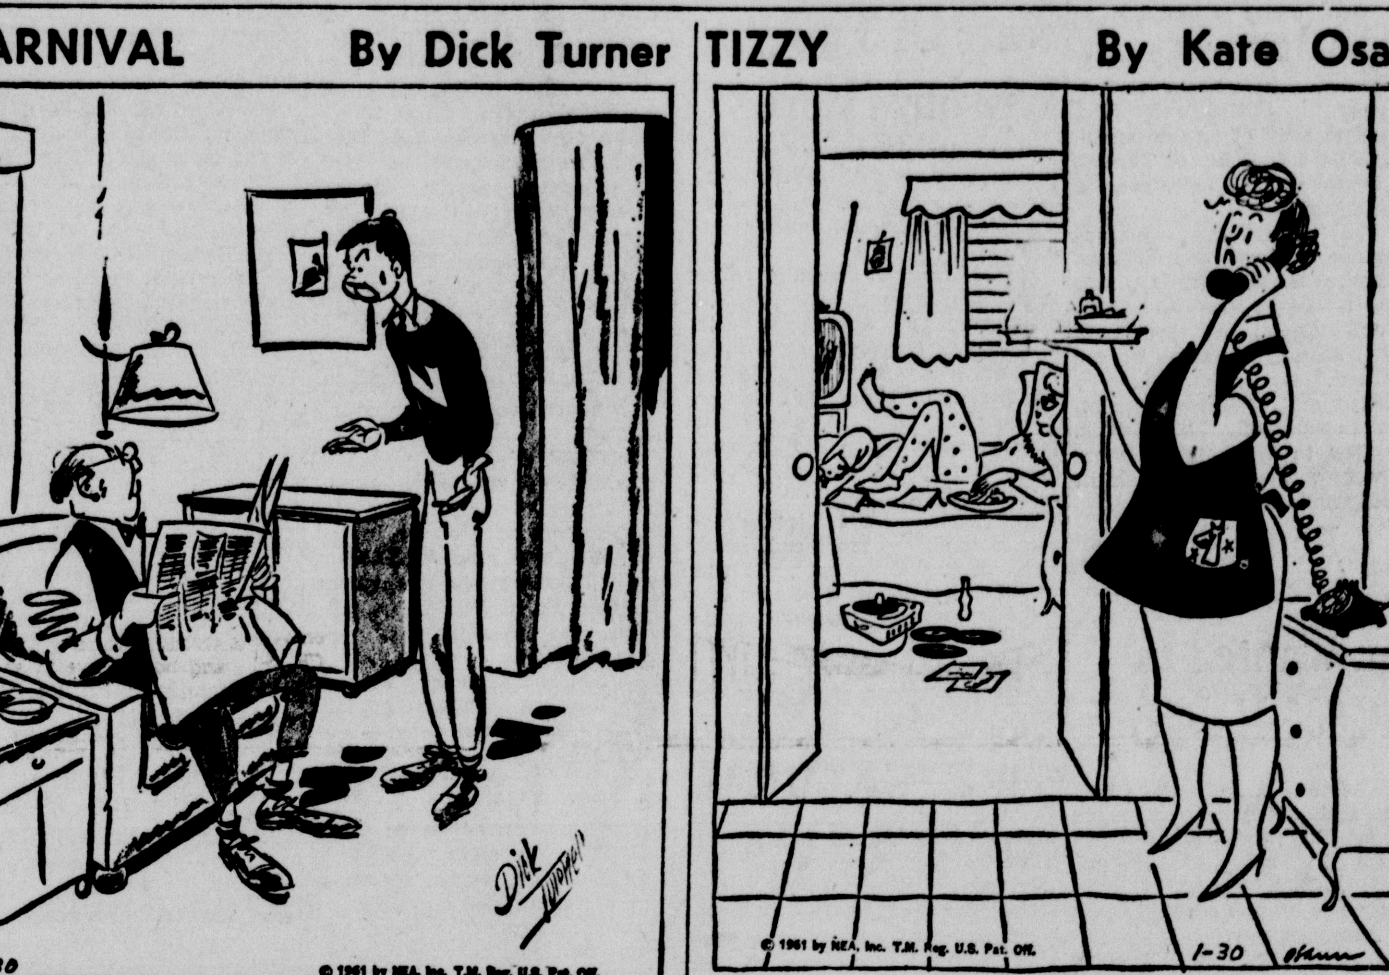

The white-shrouded tray loomed sharply out of the dimness, seeming to swell in size and grow enormous. She closed her eyes against the sight, but it was still there before her in the darkness of her mind. And then she paused, sniffing the air around her. Was there an odor of warm food? Of roasted meat? She opened her eyes and sniffed again.

And then, slowly, it came to her—the reason why Jane was doing this to her. She meant to kill her, to starve her to death! She was not mistaken in this conjecture; she was positive she wasn't. She and Jane were embarked upon a weird and deadly kind of guessing game. Each tray brought in from now on would contain either some monstrous horror like the dead bird or a perfectly good meal.

It was up to Blanche to try to guess which was which. Her eyes fixed upon the tray, Blanche reached out to the wheel of her chair and began again to move forward. At least she knew now the kind of madness she was up against. That helped.

Steeling herself, she moved back again toward the desk. She had not covered more than half the distance, however, when she stopped. She sat for a moment staring straight ahead and then all at once she collapsed forward and buried her face in her hands. She couldn't do it. Suddenly she knew it. She simply hadn't the courage; Jane had won. Convulsively, helplessly she began to sob.

## FAT GOES FOR ROTE

NEW YORK (AP)—Pat Summerall, who kicks placements and field goals for the New York Football Giants and also is a radio commentator, disagrees with the All-Star National League football selections.

"They (coaches) goofed in not naming Kyle Rote, the Giants' great offensive end, to the Eastern squad," says Summerall.

"Without this guy the Giants might have ended up near the cellar rather than in the first division."

"Rote had a broken hand but played with it in a cast the last five games. He caught 42 passes for 750 yards and 10 touchdowns for the season. His previous high was 31 passes caught in 1955."

## Released Fliers Don't Know Fate Of Missing Men

TOPEKA, Kan. (AP)—An Air Force officer on the Pentagon staff disclosed Sunday night that Capt. John R. McKone and Freeman B. Olmstead don't know what happened to three members of their B-24 crew still listed only as missing.

McKone and Olmstead, at home after seven months in a Soviet prison camp, were relaxing today with their wives and children. They were under orders not to grant any interviews.

They were among six airmen in the plane shot down in the Barents Sea near the Soviet Union last July. The body of one crewman, Capt. Willard G. Palm of Topeka, was recovered and returned to this country.

LT. Col. Robert Eby, who accompanied the two fliers to Topeka's Forbes AFB, Saturday, said he had talked to them and "they just don't know; the three men are still missing as far as we are concerned."

McKone and Olmstead were released unexpectedly last week. They flew to Washington where they were welcomed by President Kennedy and their wives.

## FBI Agents Nab Man Wanted In \$110,000 Robbery

NEW CASTLE, Ind. (AP)—FBI agents and local police converged on a hotel here today and arrested William Elsworth Spencer, 57, Massillon, Ohio, for the \$110,000 robbery of a branch bank in Gary, Ind., last Saturday.

The police waited until Spencer left his room to take a train to Cincinnati before nabbing him. He did not resist.

Spencer, who was born and reared in Glenroy, Ohio, was released only last Dec. 16 from the Moundsville, W. Va., state prison, where he had served 18 years of a 25-year sentence for bank robbery.

Edward J. Powers, special FBI agent, said Spencer had approximately \$83,700 with him, most of it in two suitcases. He said Spencer had spent more than half his life in prisons for robberies.

Powers said police learned that a man answering Spencer's description had taken a train at Crown Point, Ind., for New Castle. He registered at the hotel here as James McClure.

Two days before the Saturday holdup of the Glen Park branch of the Gary Trust and Savings bank, a stakeout of city banks had been watching the banks two weeks after receipt of an anonymous telephone tip that there'd be "a big holdup at some Gary bank."

A police photograph of Spencer was pointed out by the branch assistant manager—James H. Sackett, 25—as resembling the swarthy gunman who greeted him at the bank when he opened up Saturday morning.

Sackett said as he walked through the parking lot, he noticed a man "keeping pace and conversing toward me. I knew this was it," he said and added he remembered the warning from police and the stakeout.

After the gunman ushered Sackett into the bank, he scooped up the \$110,000. Then he tied Sackett up and fled.

FRANKLIN GILBERT DIES ROME (AP)—Franklin Gilbert, 43, producer of "Lend An Ear" and other stage shows in Hollywood and on Broadway, died Saturday of a heart attack. He had been associated movie producer for Columbia and Republic Pictures in Hollywood. Gilbert, whose real name was Franklin Goldberg, was born in San Francisco.

HUNTSVILLE EDITOR DIES HUNTSVILLE, Ala. (AP)—Will Mickle, 34, editor of the Huntsville Times since 1958, died Saturday of a heart attack. Mickle, who joined the Times as a reporter in 1954, was born in Anniston, Ala.

## Four Cars Bear Scars Of Two Smashups Here

Four automobiles sustained damage in two separate collisions on Jacksonville streets Sunday, drivers in both accidents escaping injury.

A 1956 Chevrolet driven by Nellie B. Sample, Ashland route one, was driving west on West State street at 9:59 a.m. Sunday when it came into collision with a 1959 Oldsmobile driven by William L. Clancy, Kalamazoo, Mich., which was pulling away from its parking place in front of the Professional Building, headed west.

The Sample car received damage to the right front end, hood, right door, and bumper. It was towed to the John Ellis Garage.

Clancy's car had damage to the front end, but was able to proceed under its own power.

Second accident of the day occurred at 1:30 p.m. at East Court and North East streets where a 1950 Lark driven by Ethel M. Rose, 12 Edgemoor Court, and a 1950 Chrysler, driven by Raymond Thomas, 409 North East street, were involved in collision.

The left front end of the Lark and right rear end of the Chrysler were damaged. Both cars were able to leave the scene under their own power.

## Jerseyville Is Considering Natural Gas

JERSEYVILLE.—Norman Fields of Riverton, Illinois, member of the village board of that place, was a Jerseyville visitor Saturday afternoon and interviewed local city officials and others regarding the proposal for bringing natural gas to the City of Jerseyville.

Riverton, a village of 1500, is approximately two miles from the main Panhandle Gas Line, and brought the natural gas to that village under village sponsorship and operation. Fields reported that approximately sixty per cent of the homes in Riverton are using natural gas and the income to the village during November and December of the past year was between four and five thousand dollars. The gas lines were run into Riverton in 1958.

The question of granting a franchise for electricity and natural gas for fifty years to the Central Illinois Public Service Company will be discussed at the meeting of the Jerseyville City Council Tuesday evening January 31st at 7:30 o'clock. All residents interested in the matter are being urged to attend the meeting.

A preliminary survey of the city was made recently by the Central Illinois Public Service Company relative to prospective users of natural gas if the service were brought here. The CIPS proposed to bring gas from the main pipe line of the Panhandle company in the vicinity of Alsey, Illinois, a distance of some thirty three miles from Jerseyville.

The cost of bringing of gas mains in the municipality has been estimated at \$1,250,000 by the light company which presently holds the franchise for furnishing electricity.
